

# Dummy Rest APIs Testing

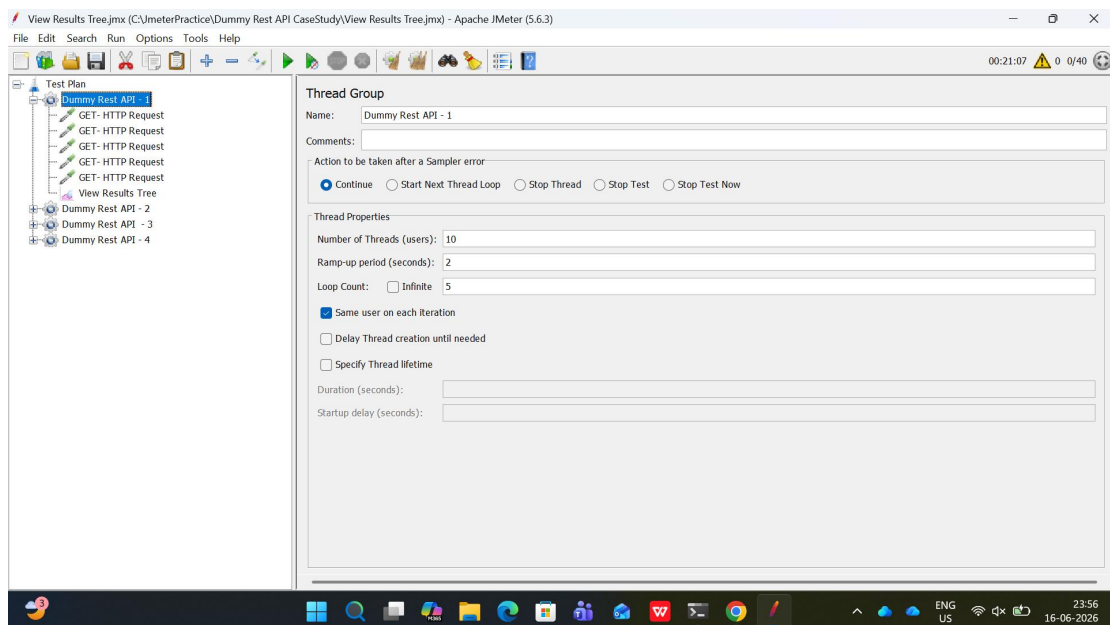

Bappi Gorain  
85009834

## GET Request

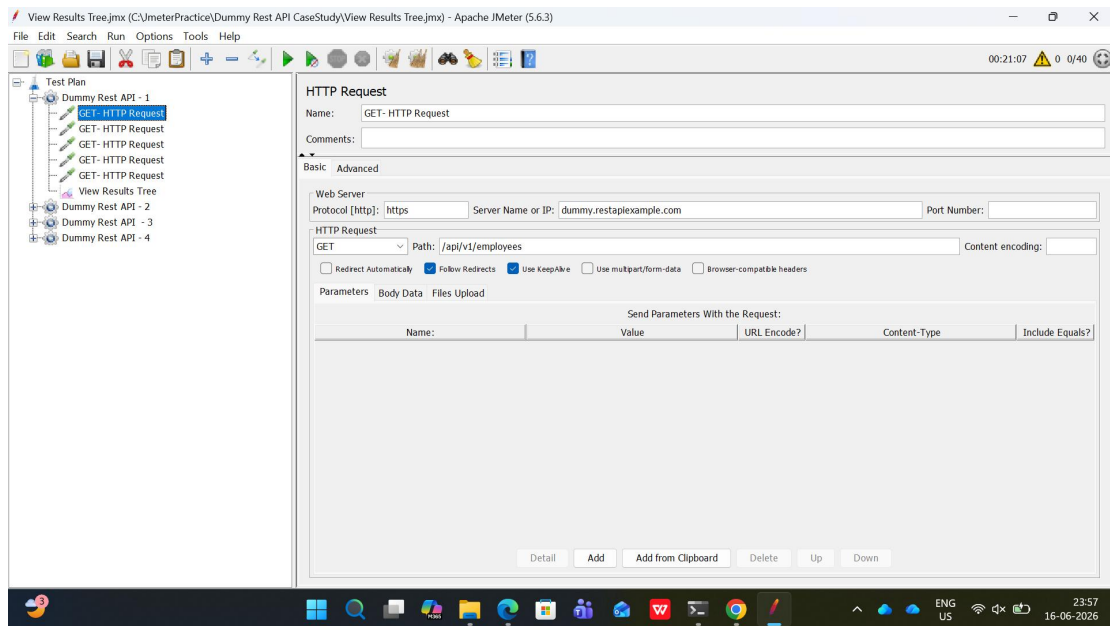

### Step 1: Start JMeter

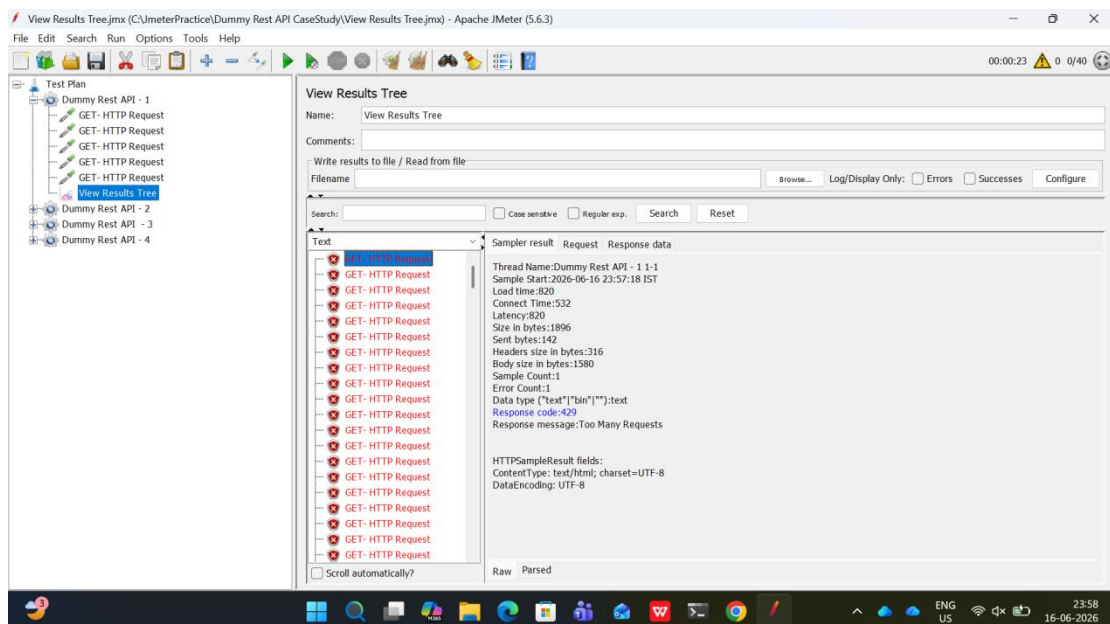

### Step 2 : Create a thread group

## Step 3 : Create HTTP Request

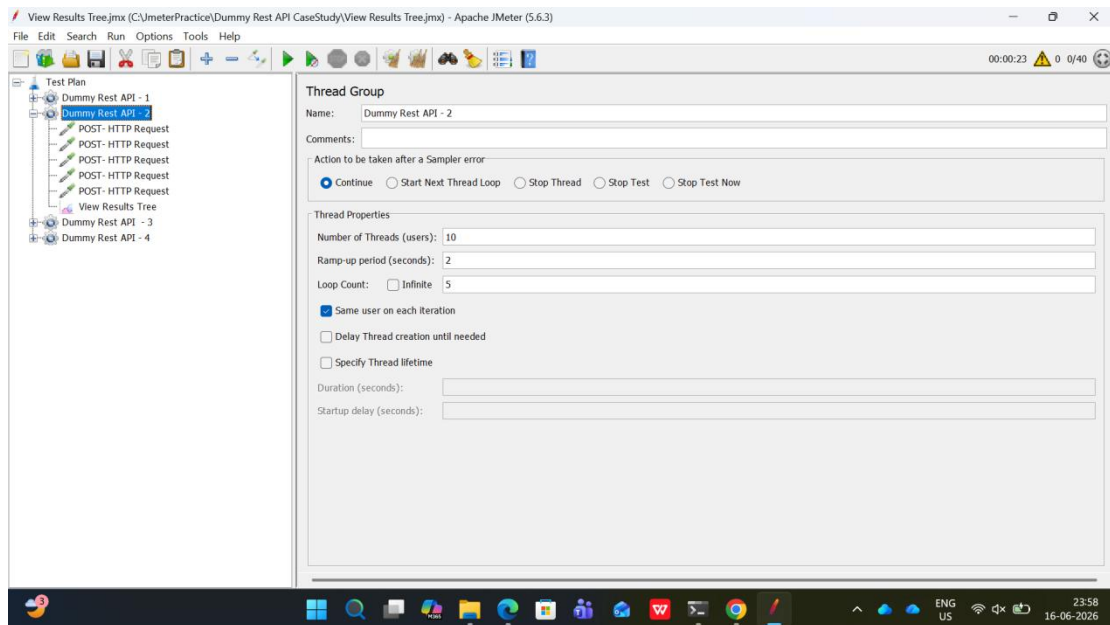

## Step 4 : Add Listners

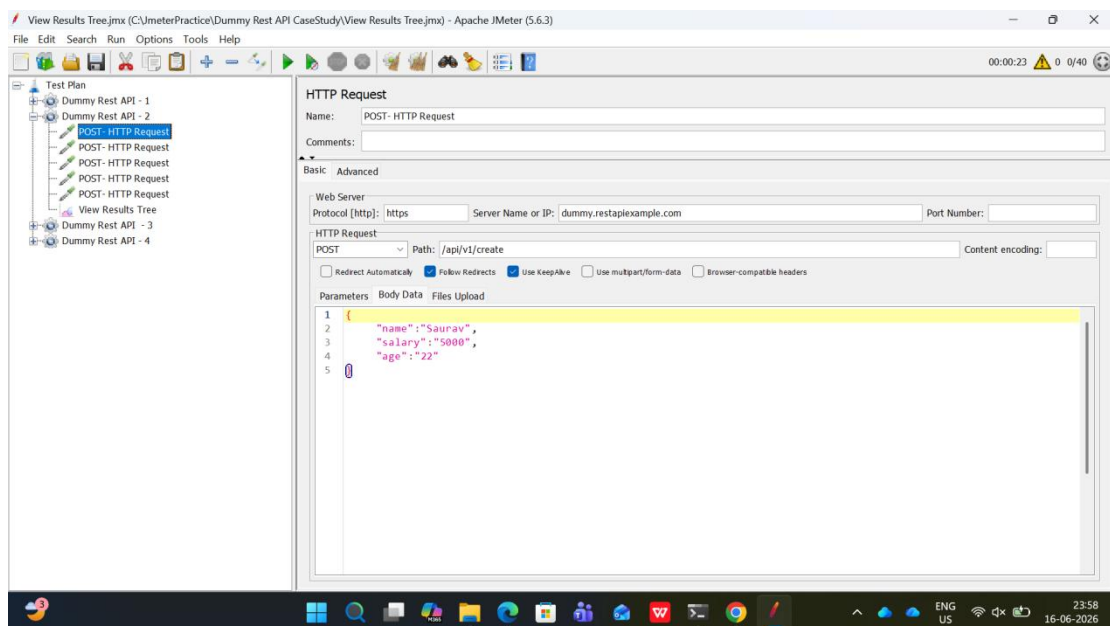

## POST Request

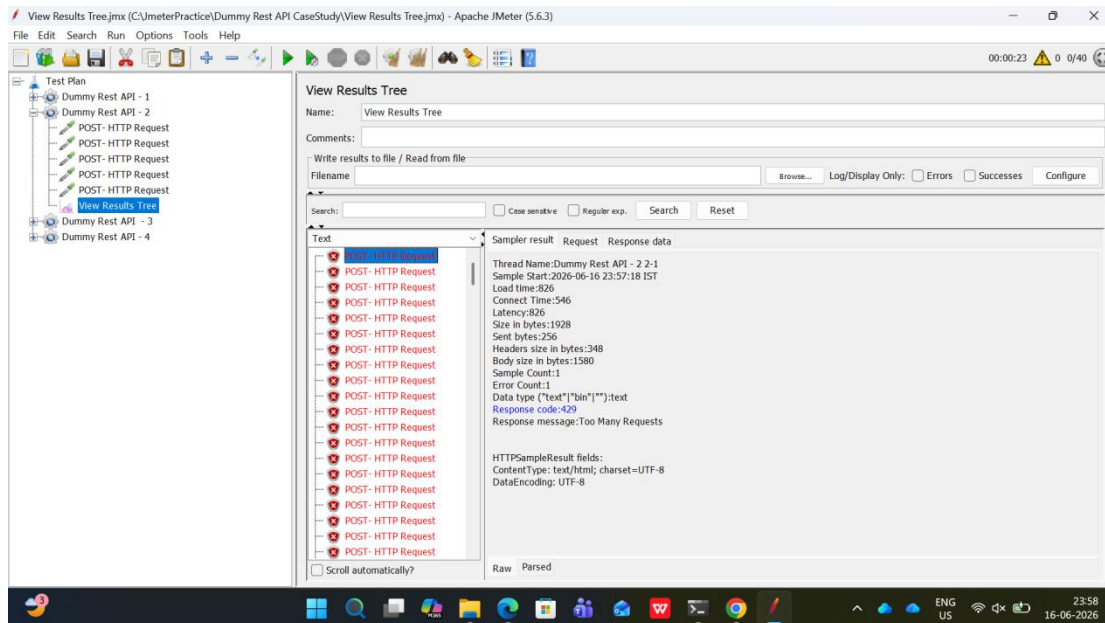

### Step 5 : Create a thread group

### Step 6 : Create HTTP Request

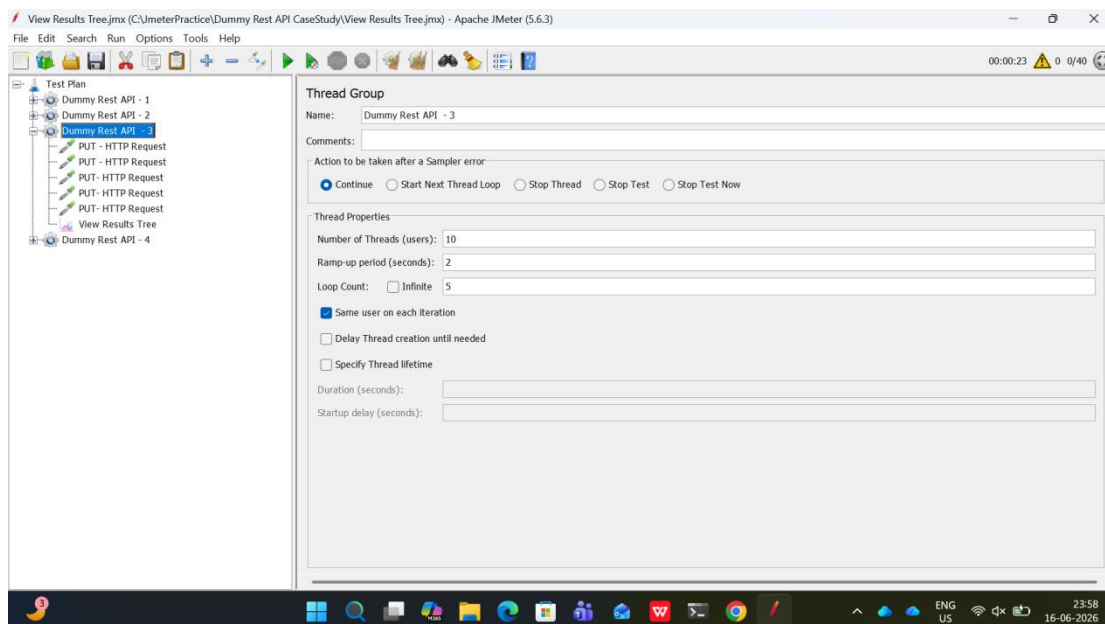

## Step 7 : Add Listeners

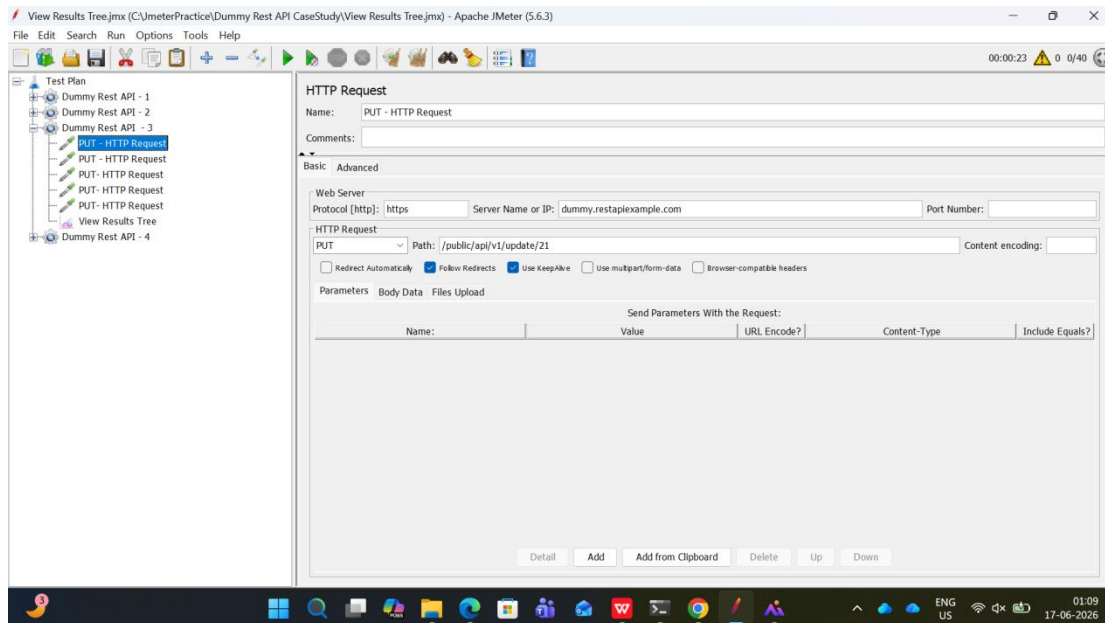

## PUT Request

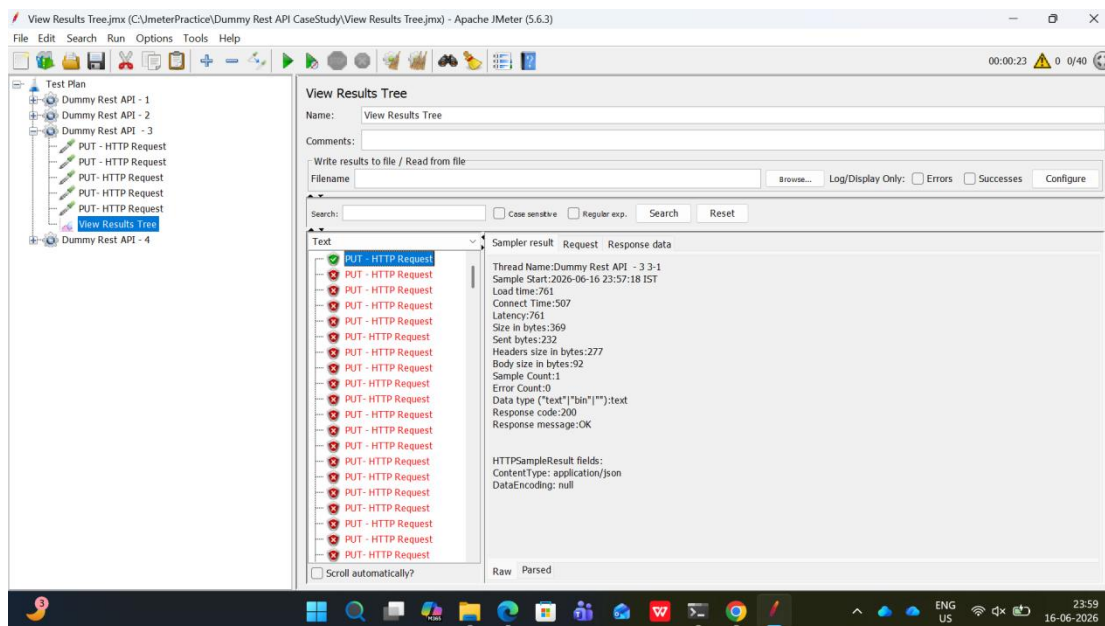

## Step 8 : Create a thread group

## Step 9 : Create HTTP Request

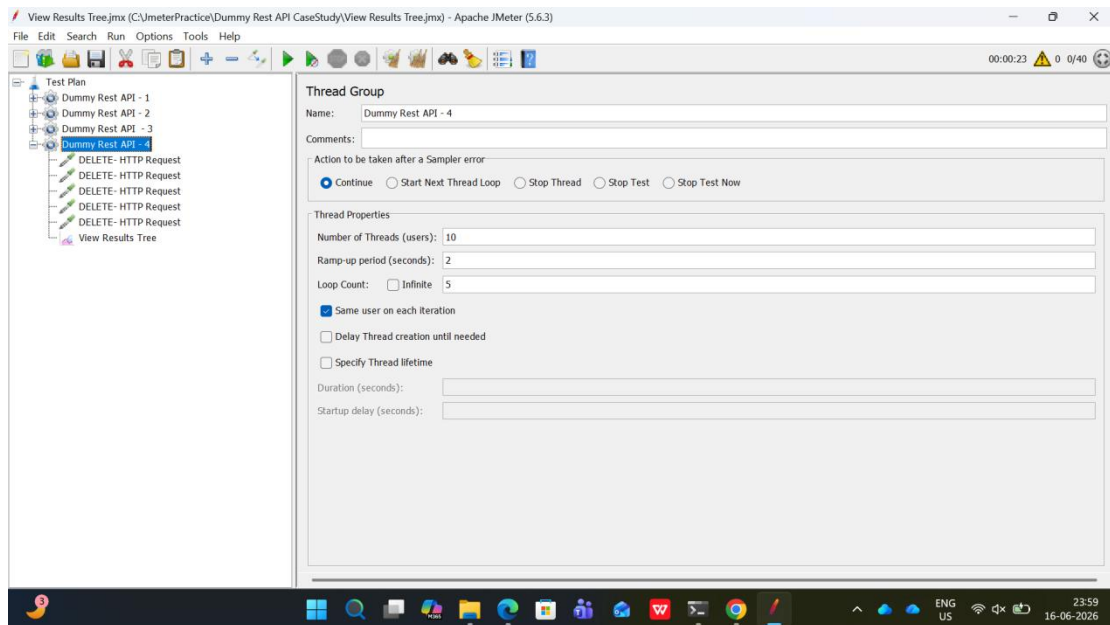

## Step 10 : Add Listeners

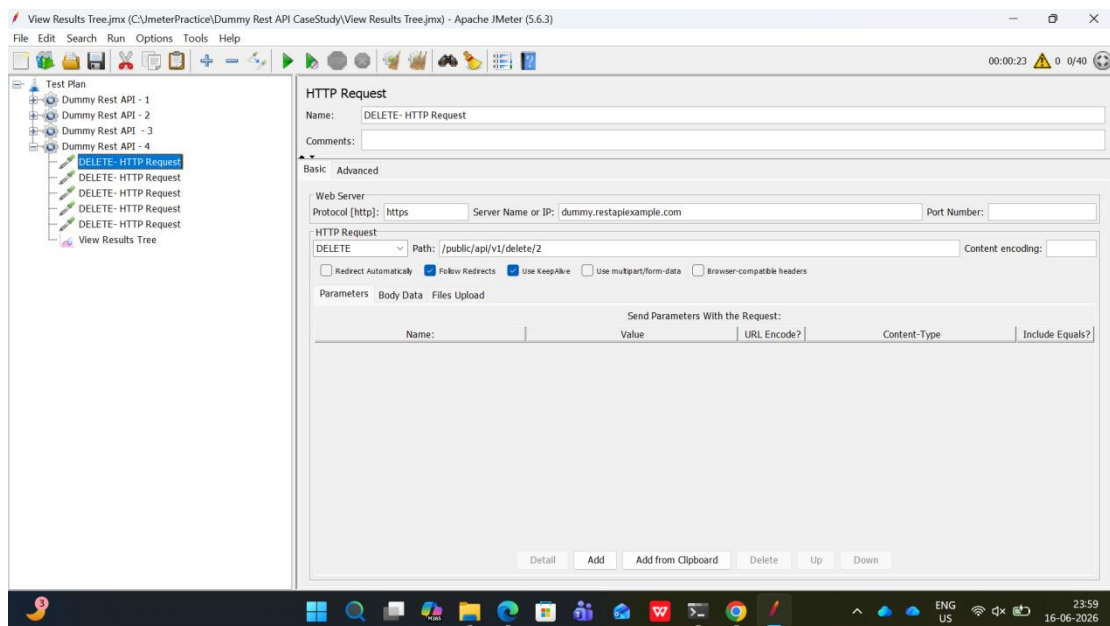

## DELETE Request

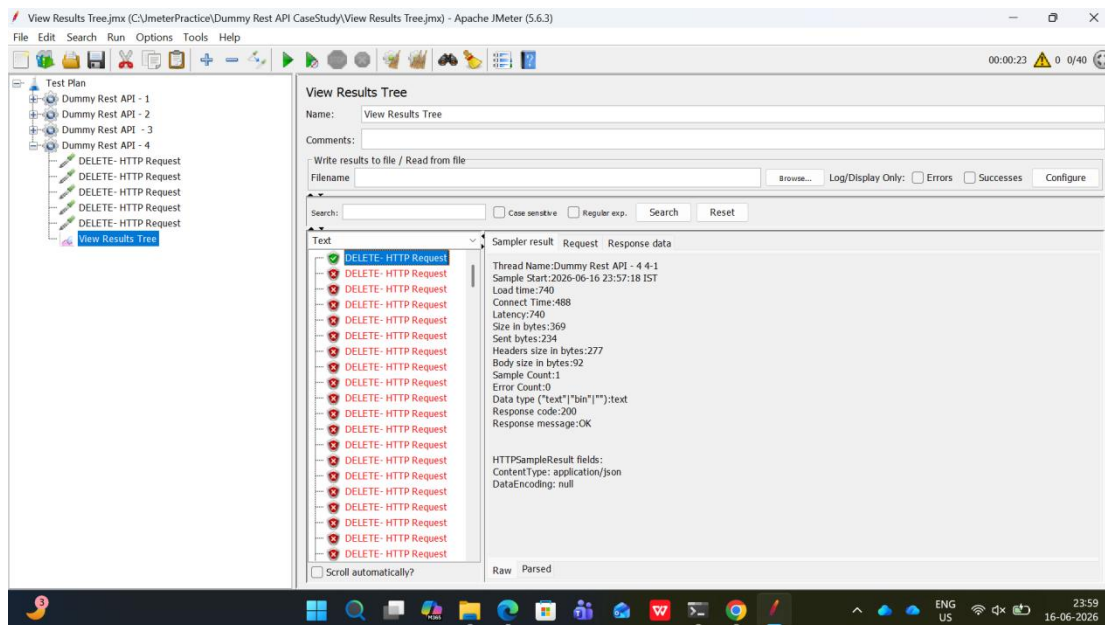

### Step 11 : Create a thread group

### Step 12 : Create HTTP Request

## Step 13 : Add Listners

## Step 14 : Open Jenkins

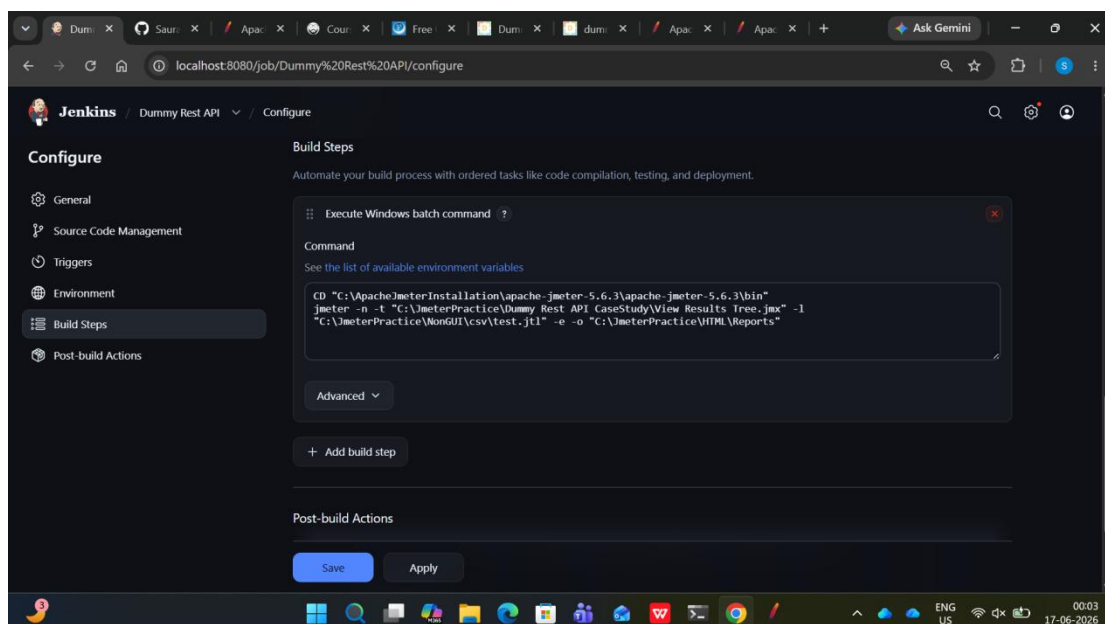

## Step 15 : Click On New Item and select Freestyle Project & click OK

## Step 17 : Go to Build Steps

## Step 18 : Click Add build step dropdown list

## Step 19 : Select Execute Windows batch Command

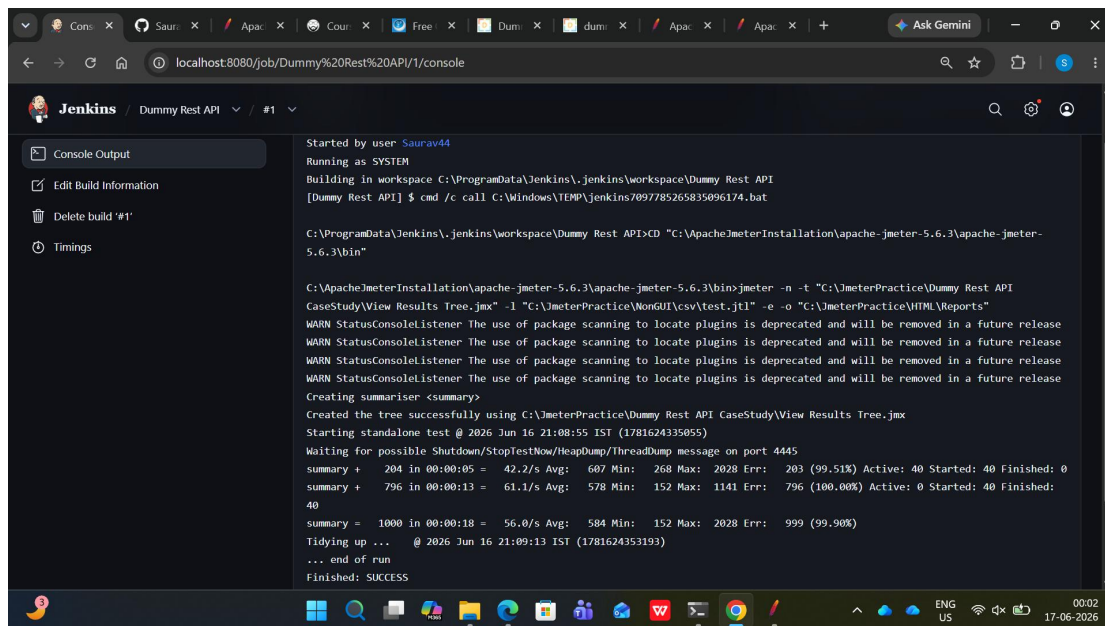

## Step 20 : Type Paths in the edit box

Step 21 : Click on Apply & Save

Step 22 : Click on Build Now Option & go to console output

The screenshot shows the Jenkins console output for a build named 'Dummy Rest API'. The output starts with 'Started by user Saurav44' and 'Running as SYSTEM'. It then shows the build directory and the command executed: 'cmd /c call C:\Windows\TEMP\jenkins7097785265835096174.bat'. The command runs 'jmeter -n -t "C:\JmeterPractice\Dummy Rest API CaseStudy\view Results Tree.jmx" -l "C:\JmeterPractice\NonGUI\csv\test.jtl" -e -o "C:\JmeterPractice\HTML\Reports"'. The output includes several 'WARN StatusConsoleListener' messages about deprecated package scanning. It then shows the creation of a summariser, the successful creation of the tree, and the start of a standalone test at 2026 Jun 16 21:08:55 IST. The test results show a summary of 204 in 00:00:05, with an average of 42.2/s, and a throughput of 607 Min, 268 Max, 2028 Err, 203 (99.51%) Active, 40 Started, 40 Finished. The test ends at 2026 Jun 16 21:09:13 IST, with a final summary of 1000 in 00:00:18, an average of 56.0/s, and a throughput of 584 Min, 152 Max, 2028 Err, 999 (99.90%) Active, 40 Started, 40 Finished. The build is marked as 'Finished: SUCCESS'.

Step 23 : Create a new test plan

Step 24 : Create thread group

Step 25 : Add Listners (Aggregate Graph)

Step 26 : Browse the .jtl file & click on Display
