

**Rakesh Sharma (EMP ID: 85009878)**

## 1. Start JMeter

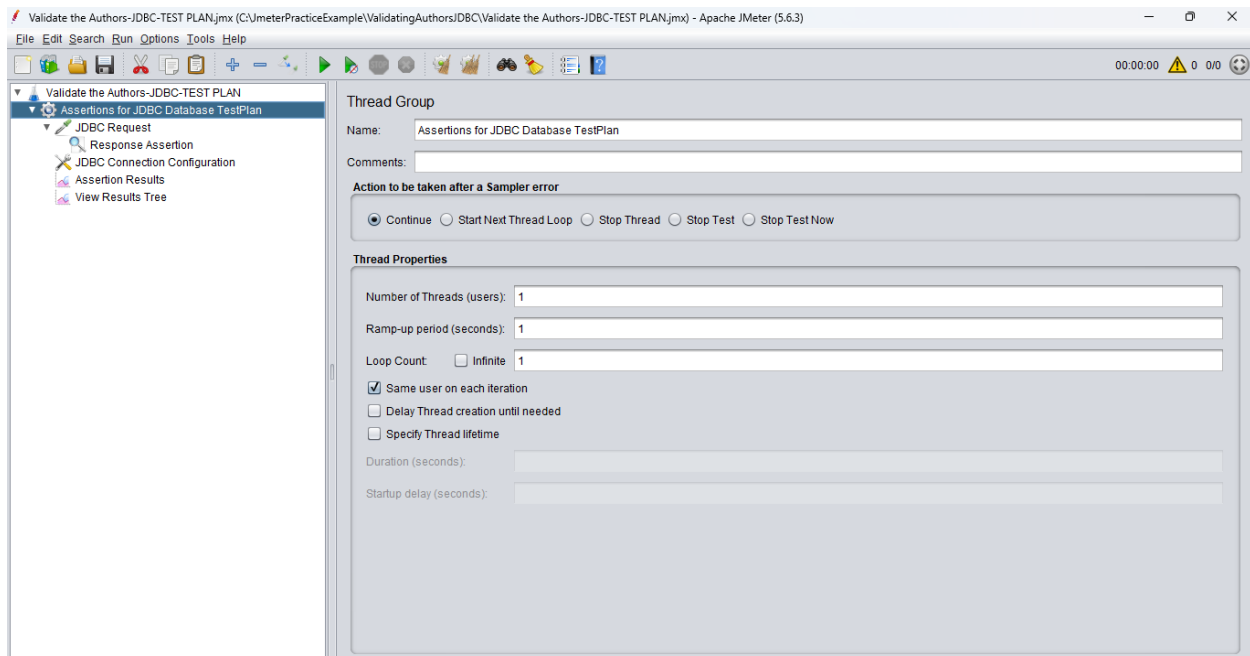

- We will start JMeter from the Bat file or CMD line.

## 2. Create a Test plan

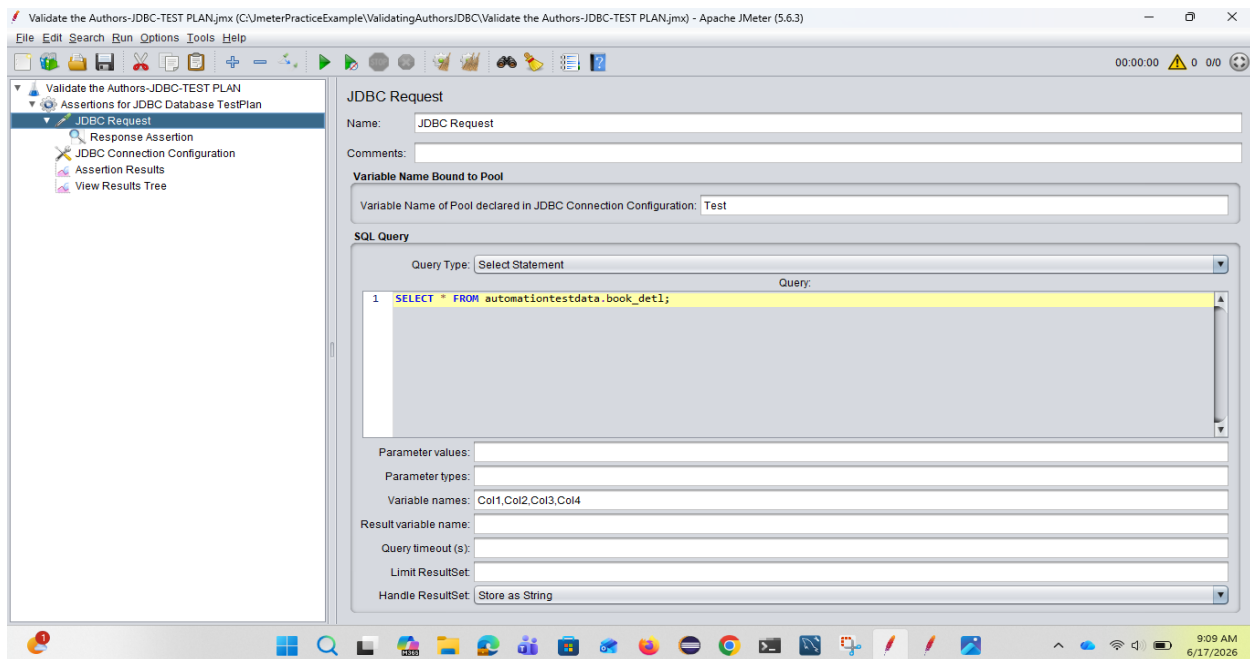

## 3. Create a thread Group

Number of user is 1, ramp up period is 1 and loop count is 1.

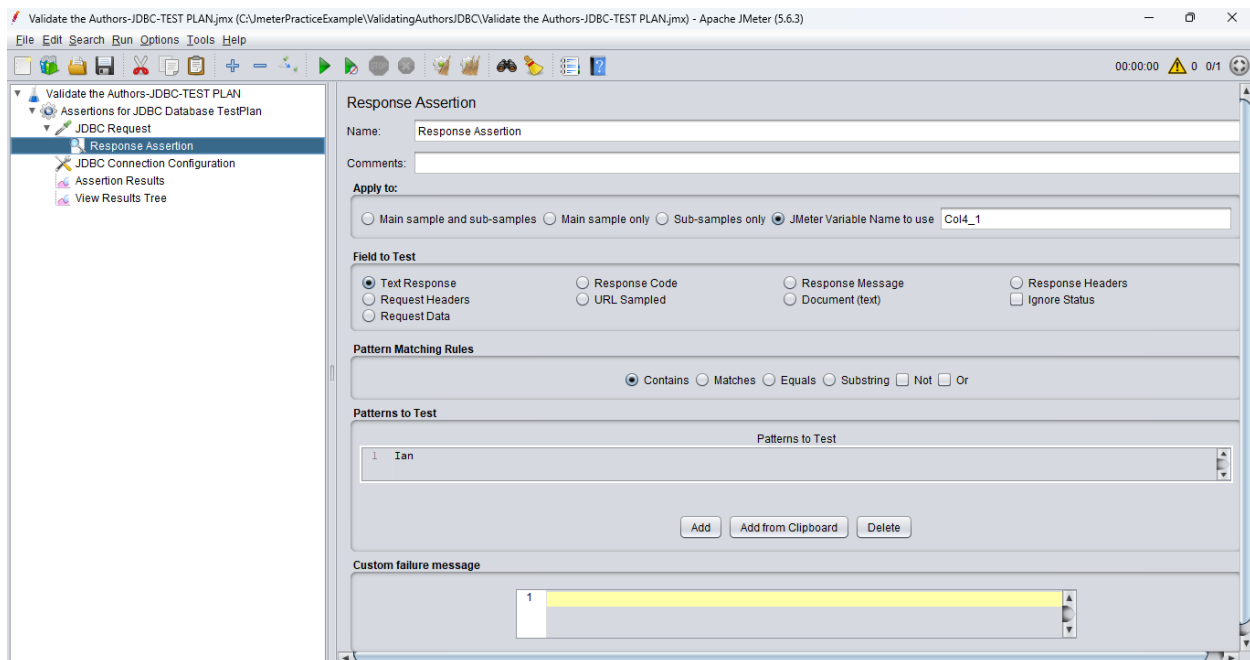

## 4. Add JDBC Request

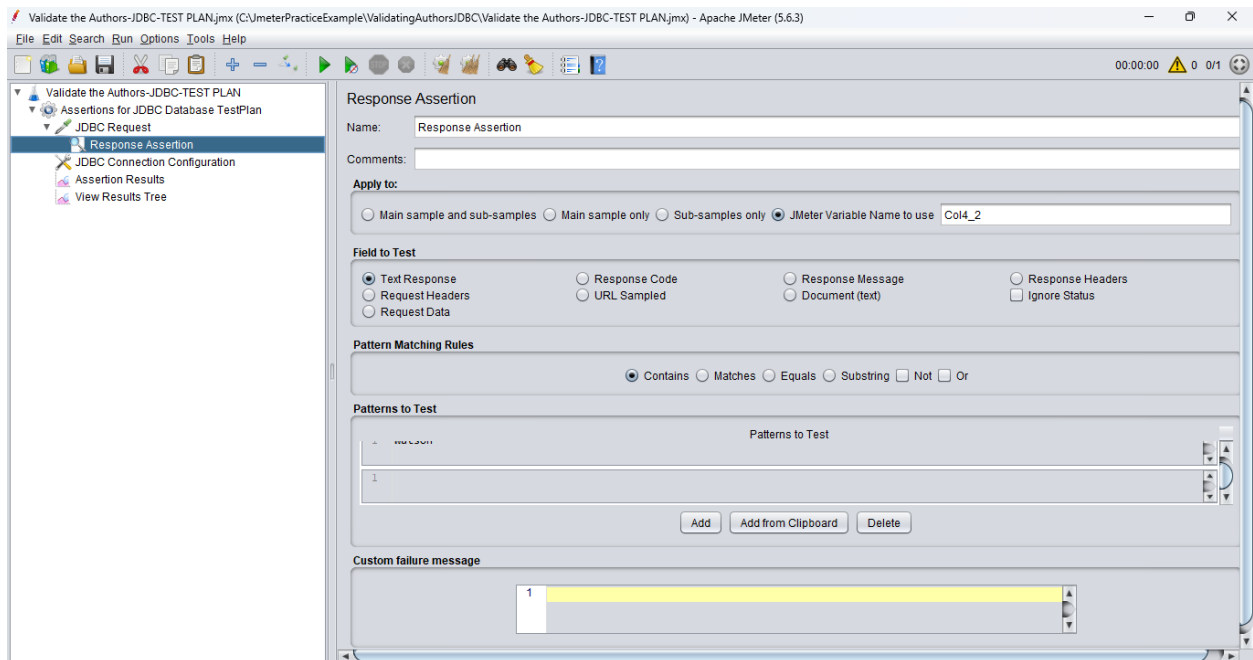

## 5. ADD Assertion and Listners - Assertion Result and View Result Tree

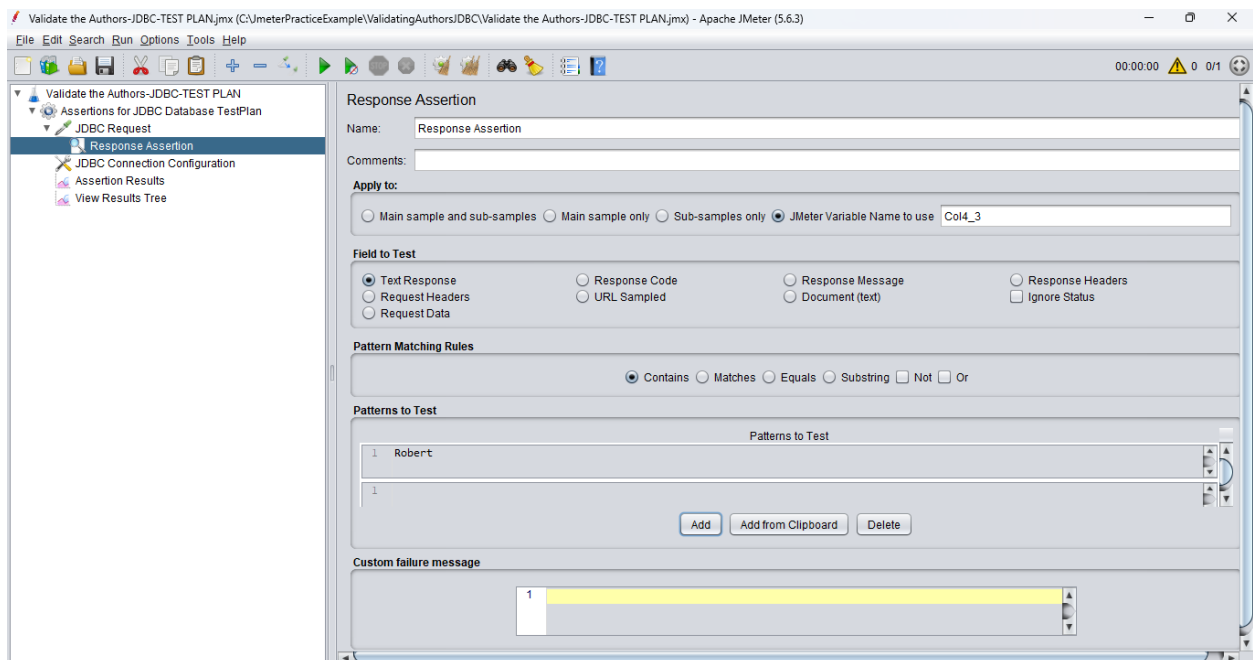

### -Response assertion for IAN

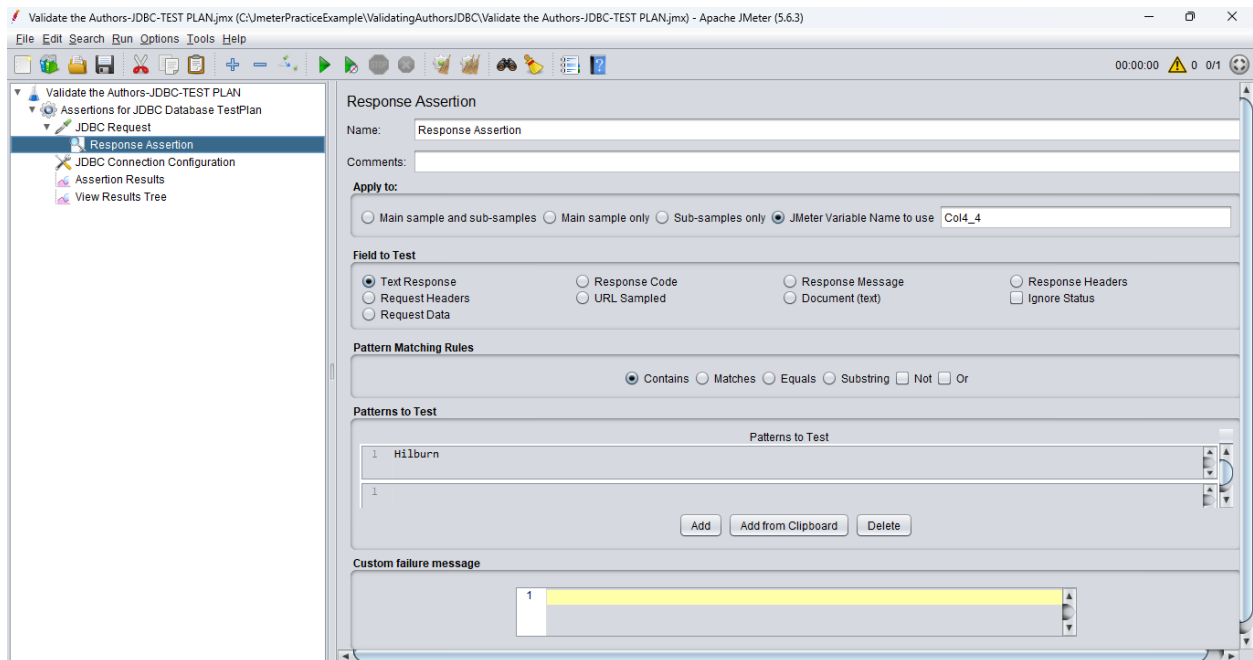

### -Response assertion for Watson

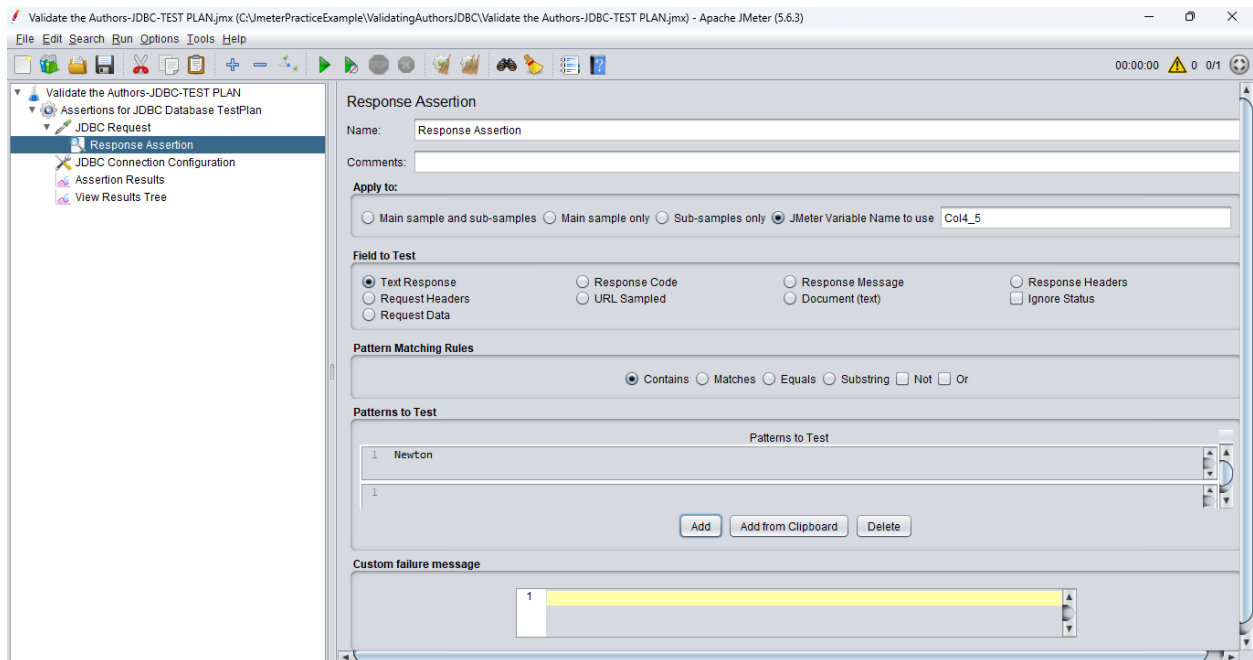

## -Response assertion for Robert

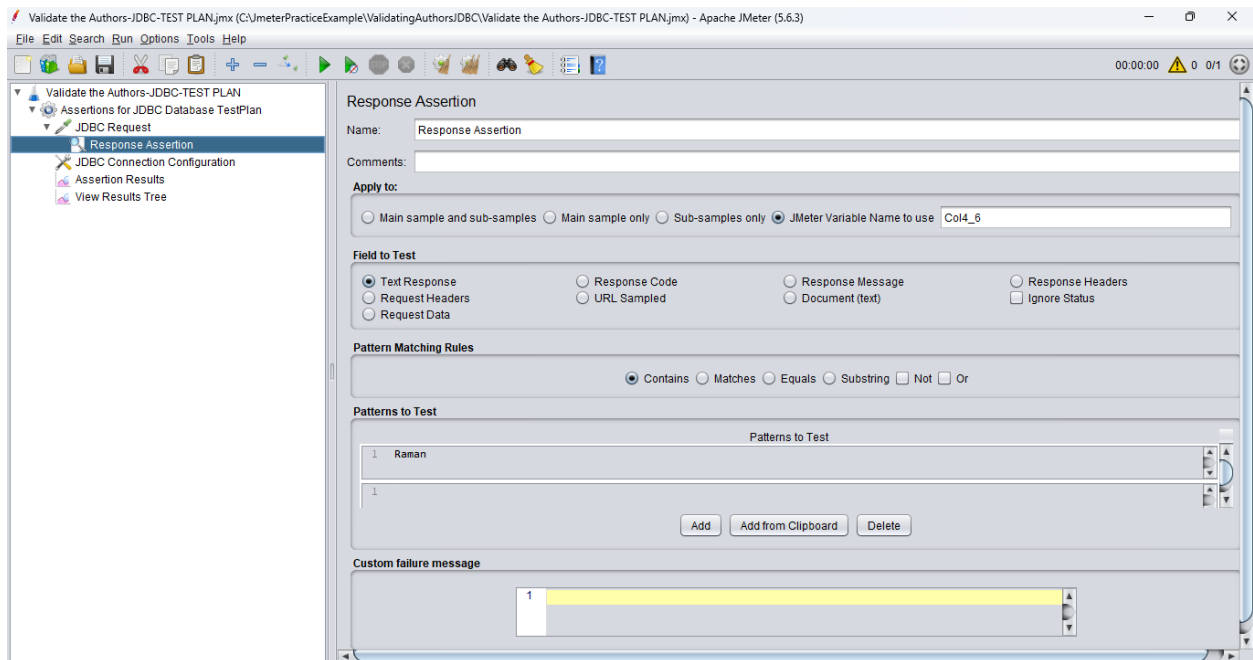

## -Response assertion for Hilburn

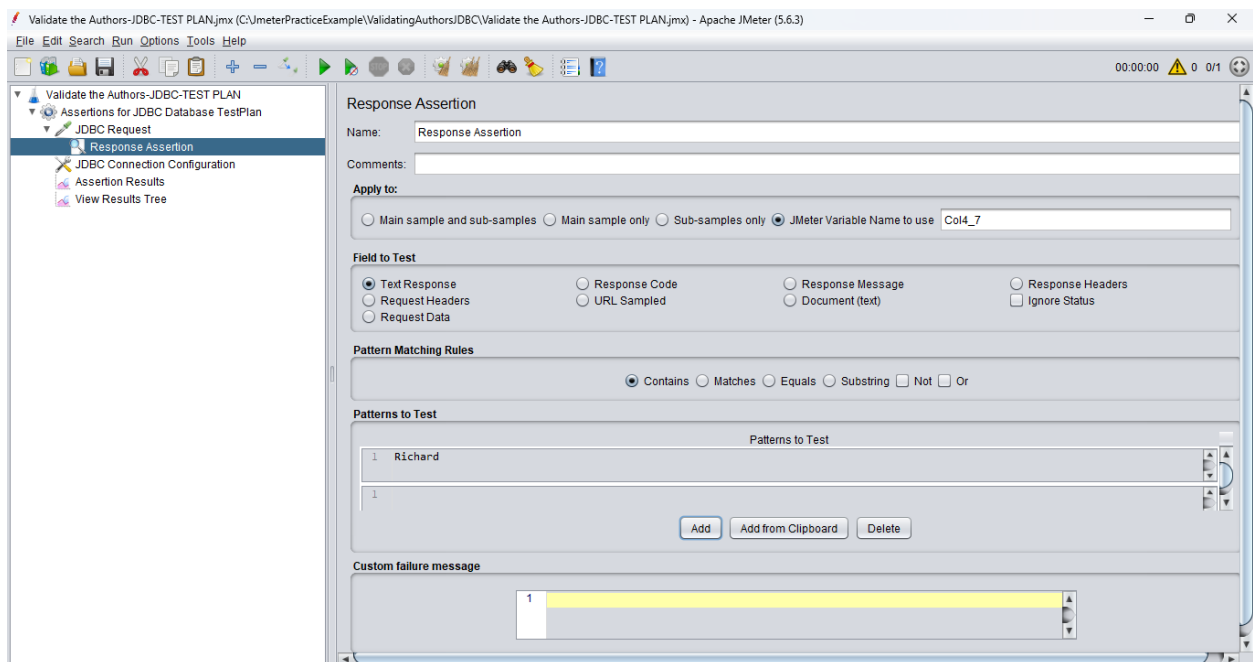

## -Response assertion for Newton

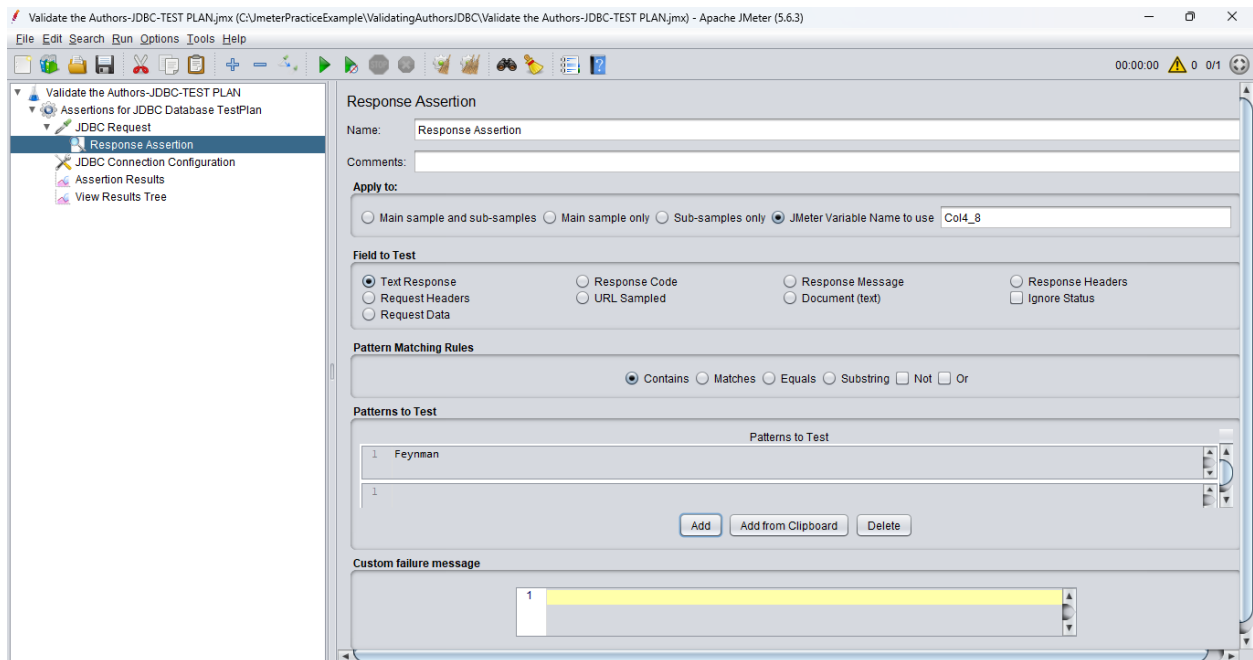

## -Response assertion for Raman

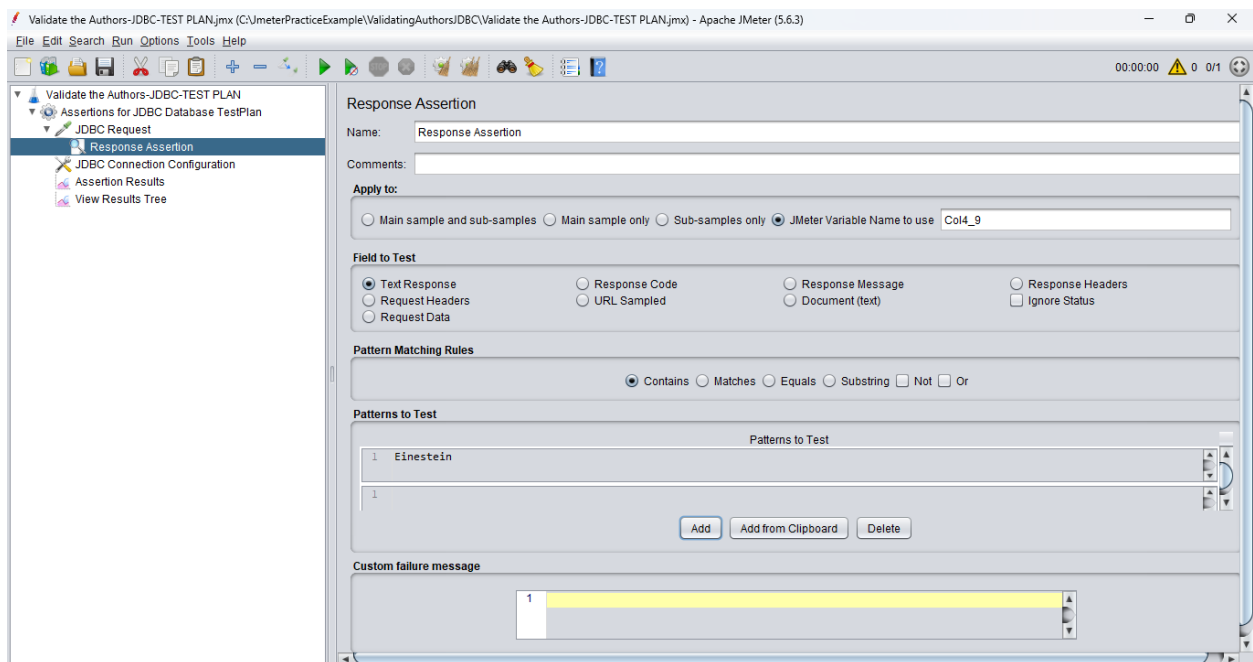

## -Response assertion for Richard

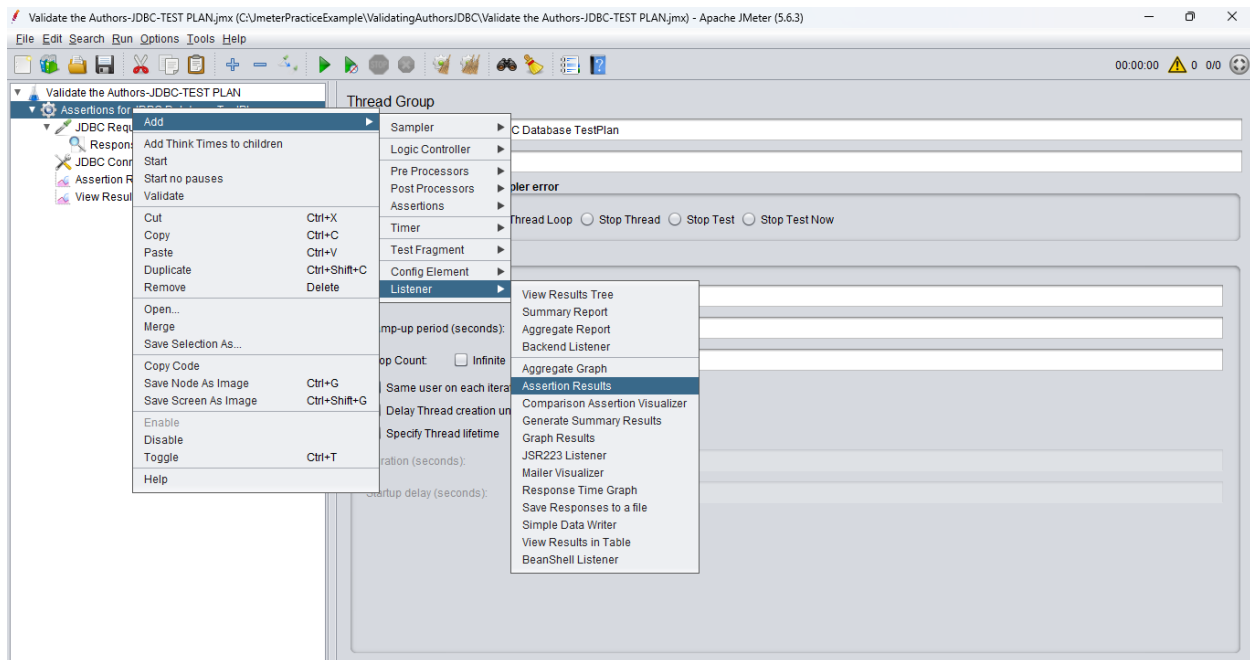

## -Response assertion for Feynman

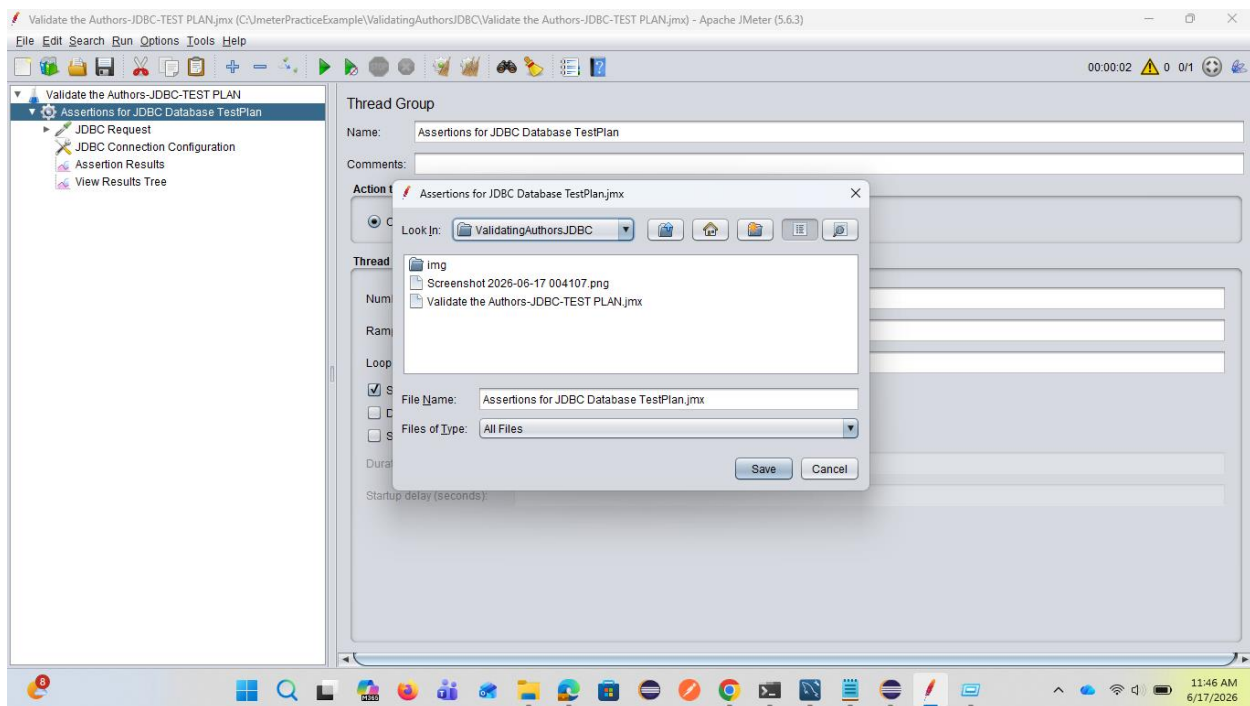

## -Response assertion for Einstein

## -- Assertion Result and View Result Tree

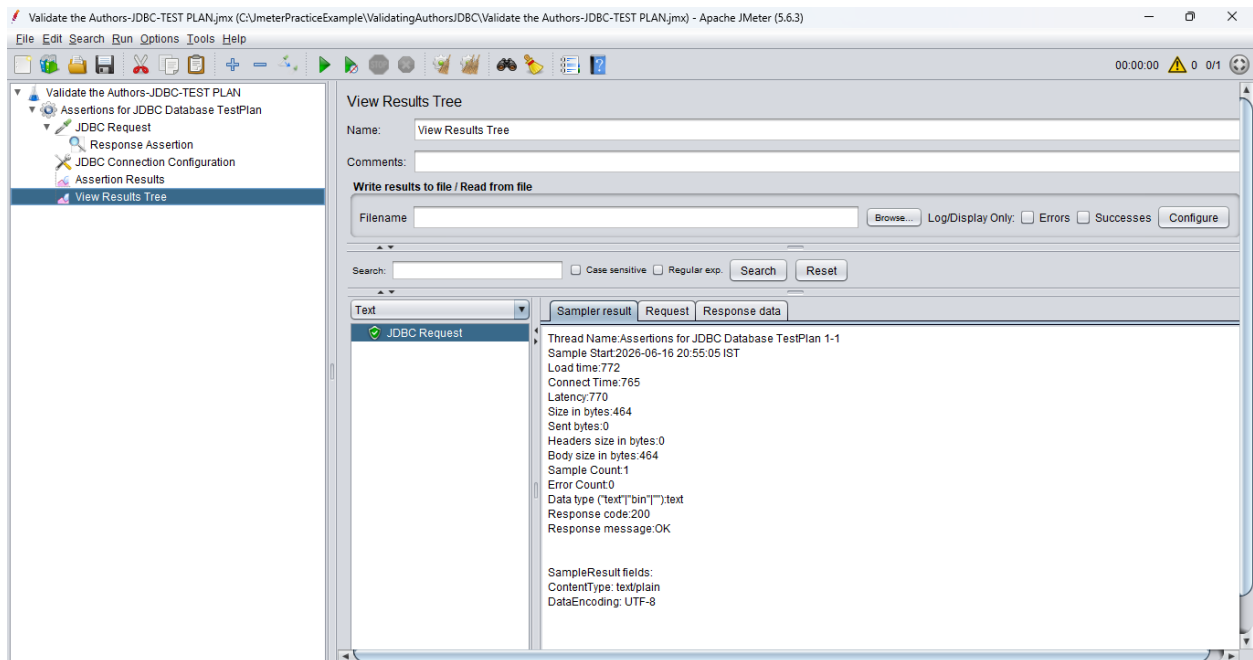

## 6. Save the test

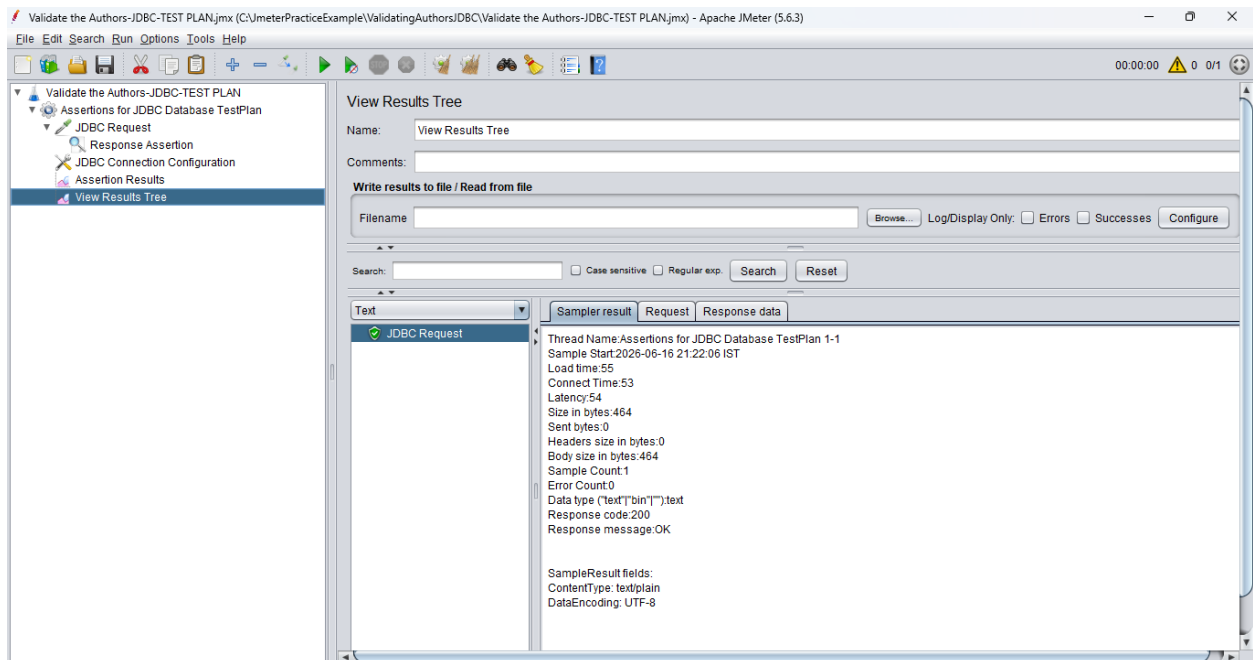

## 7. Run Test plan

## Test Plan Result for IAN

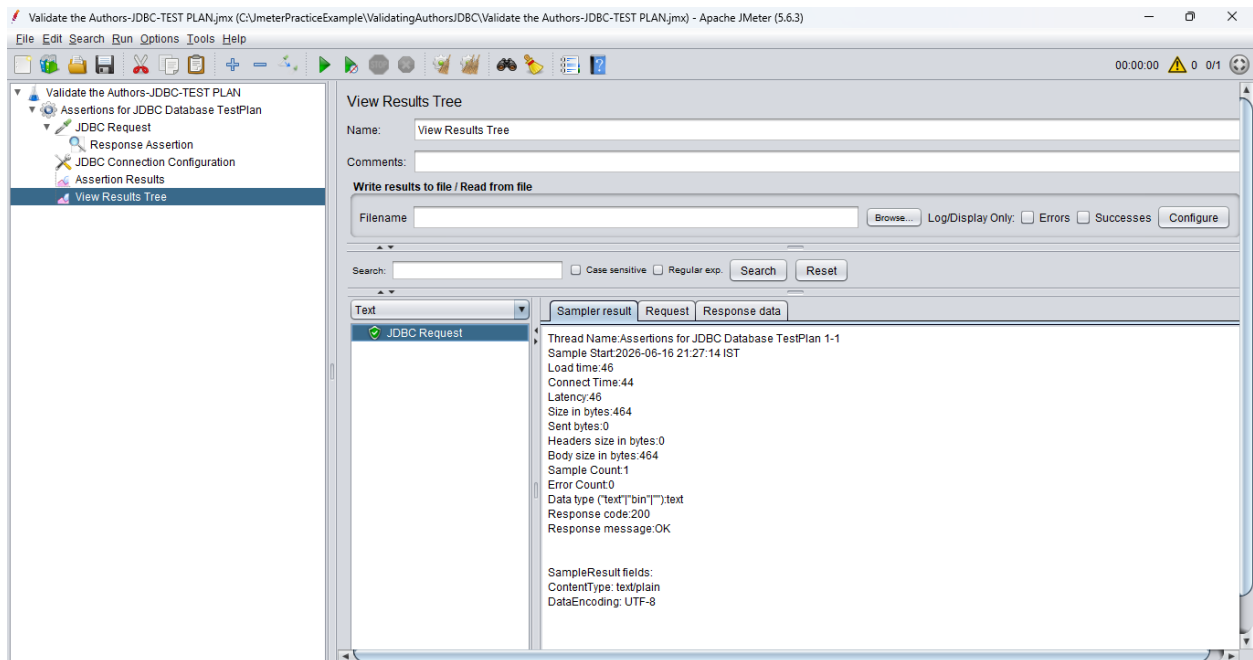

## Test Plan Result for WATSON

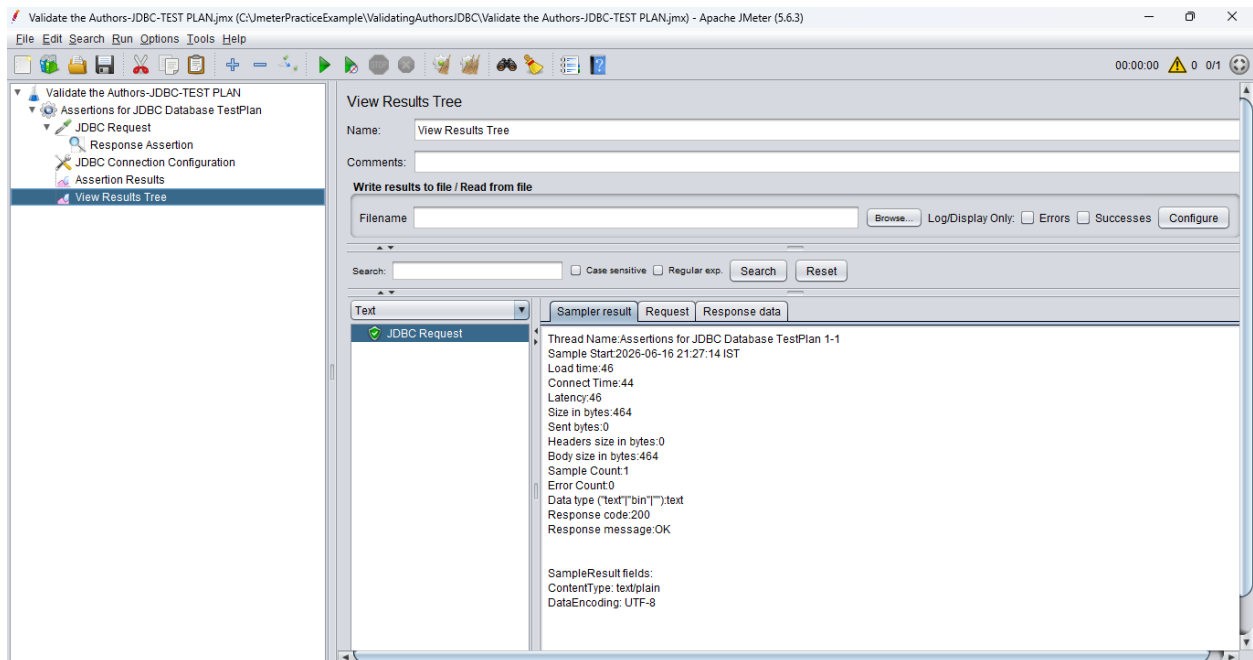

## Test Plan Result for ROBERT

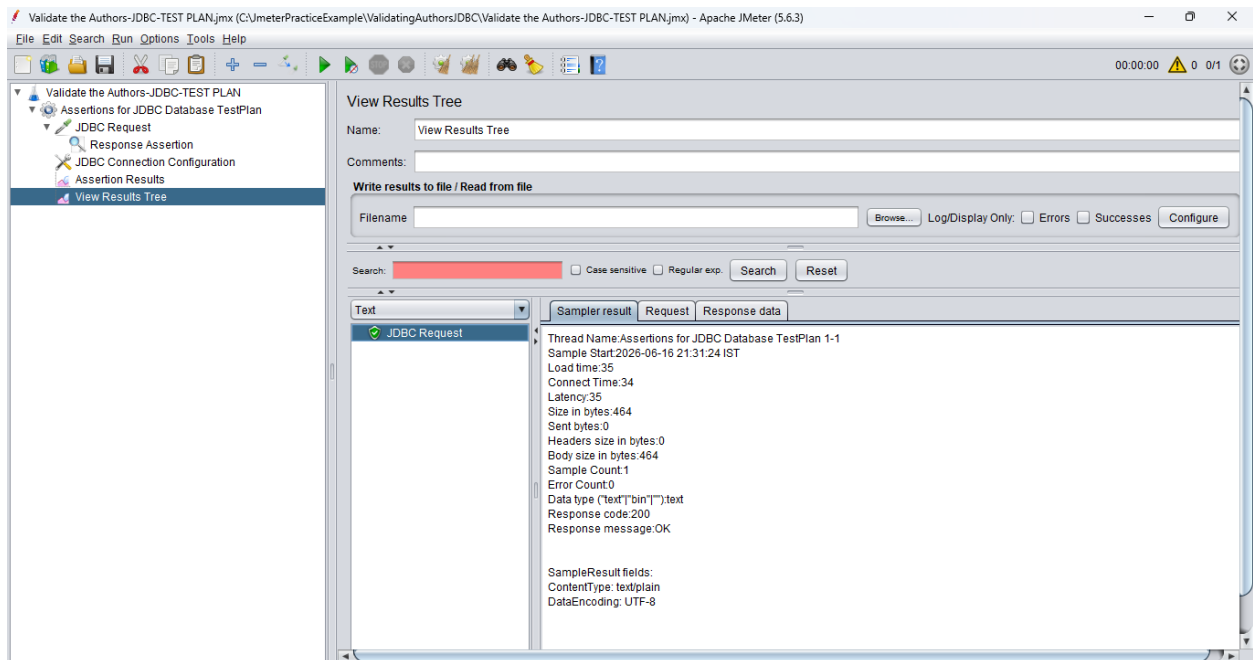

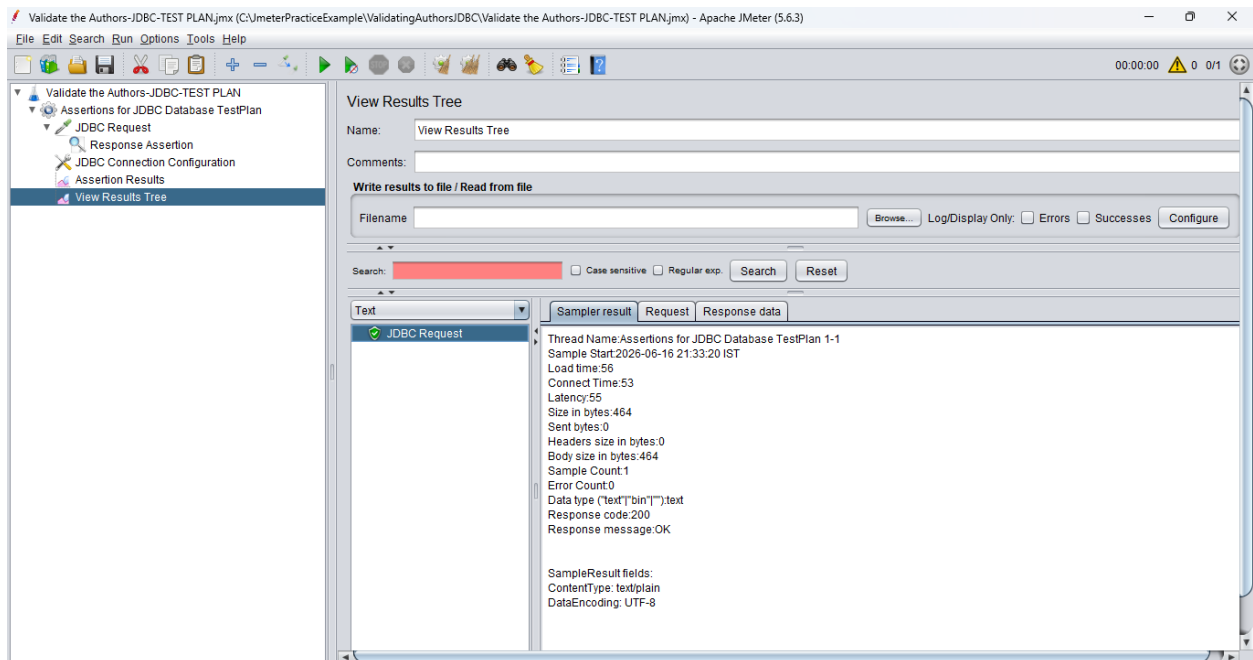

## Test Plan Result for HILLBURN

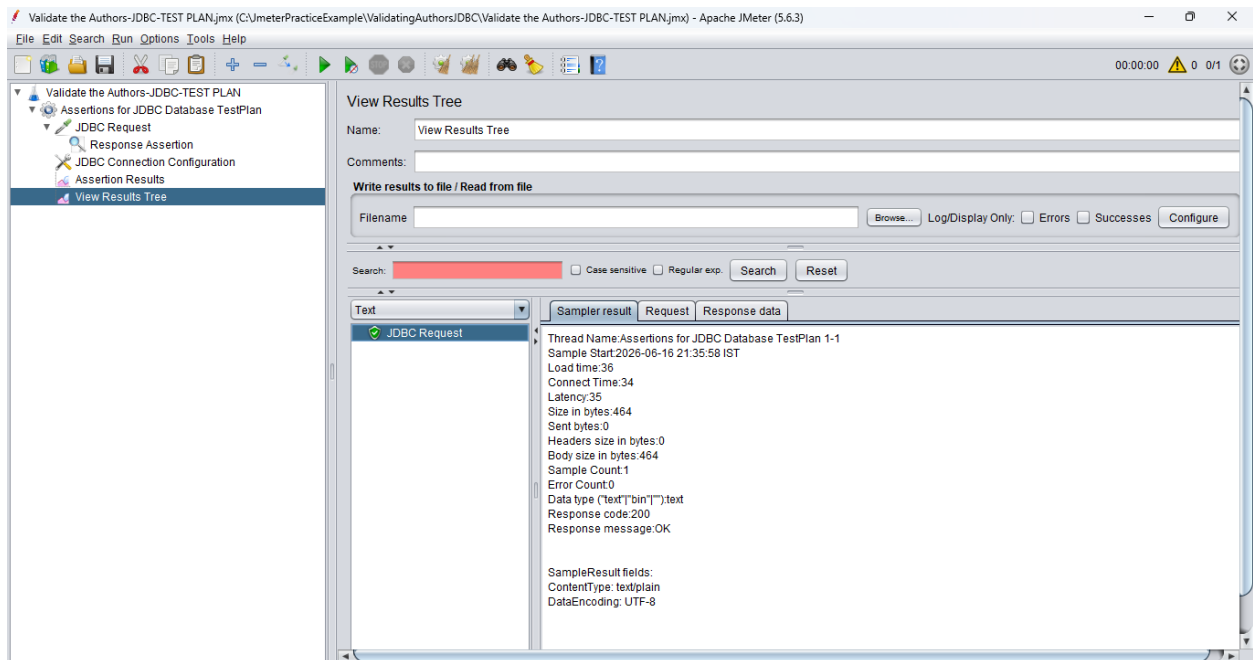

## Test Plan Result for NEWTON

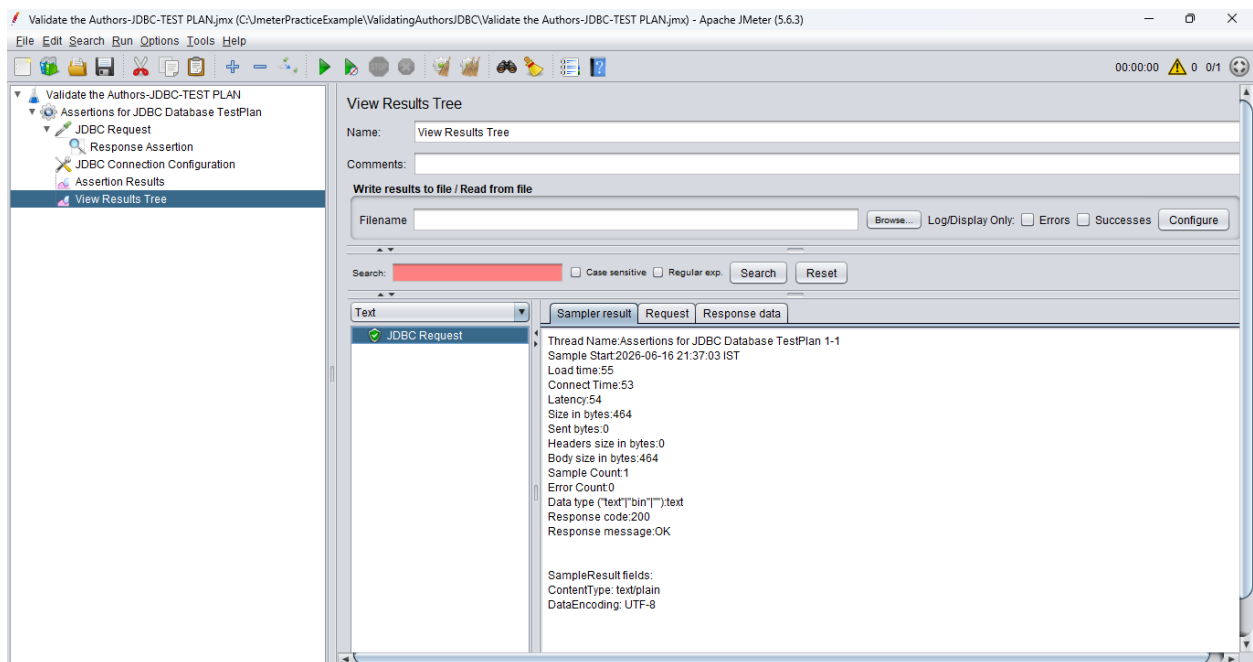

## Test Plan Result for RAMAN

## Test Plan Result for RICHARD

## Test Plan Result for FEYNMAN

## Test Plan Result for EINSTEIN
